

5911-69

Combination Unit – Seat Cover Dispenser/Dual Roll Tissue Dispenser/Waste Receptacle

Model 5911-69 — Partition-Mounted – Flush One Side For Grab Bar Installation

- ☒ Serves Two Compartments

Product Materials

CABINET: 22 gauge stainless steel with exposed surfaces in architectural satin finish. Welded construction with burr-free edges.

FLANGE: 22 gauge stainless steel with exposed surfaces in architectural satin finish. One-piece seamless construction, 1" wide with ¼" return.

DOOR: 18 gauge stainless steel with full-length piano hinge and tumbler lock keyed like other Bradley units.

PUSH FLAP DOOR: 22 gauge stainless steel with exposed surfaces in architectural satin finish. Self-closing, with heavy-duty stainless steel piano hinge.

WASTE RECEPTACLE: leakproof molded plastic. 0.88 gal. capacity.

SPINDLE: polyethylene, non-removable by user.

Capacity

Toilet Seat Cover Dispensers — 1,000 standard single-fold or half-fold toilet seat covers; Toilet Tissue Dispensers — four standard core toilet tissue rolls through 5¼" in diameter. Box of 500 waxed paper napkin disposal liners are available by ordering part number P11-022.

Operation

Hinged access door permits servicing of components from one side.
Door to be at 90 degrees for access to tissue spindle.

Installation

Verify all rough-in dimensions prior to installation. Mounts in partition of toilet compartment for physically handicapped. One side flush against partition allows clearance for grab bar (not included) across front of unit. Requires partition opening 15½"W x 28⅞"H. (Location of hole and dimensions should be noted in partition specifications.) Flanges adjustable for partitions from ¾" to 4" thick. Remove one flange and install cabinet in partition opening flush against partition. Position flanges on both sides of cabinet and secure with mounting screws (included) at holes provided.

Guide Specification

Partition mounted combination unit shall include toilet seat cover dispenser, toilet tissue dispenser, and napkin disposal, and be fabricated of heavy gauge stainless steel with seamless exposed surfaces in satin finish. Door and back panel shall be 18 gauge. Door shall have piano hinge and tumbler lock. Fixed flange shall provide for flush mounting on one side for grab bar installation.

Overall dimensions: 17⅞"W x 30⅝"H x 4½"D.

Non-Hinged Side

5900 Series Combination Units are to be installed so that doors open 90° to fill product maintain waste container.

Product Compliance

- ICC ANSI A117.1, Citation 609.3

- ☒ Consult local and national accessibility codes for proper installation guidelines.
- ☒ Conformity and compliance to local and national codes is the responsibility of the installer.
- ☒ ADA requires a 1½" grab bar clearance to the wall. When fully recessed, this unit protrudes ¼" from the finished wall. A standard grab bar, when mounted over the unit, will not meet the ADA requirement of 1½".
